

ROOSEVELT TO ATTEND FAIR, MAYBE

The Former President to Be
Asked to be Here and Help
Celebrate Statehood Day.

ROUGH RIDERS WOULD COME, TOO

Col. Theodore Roosevelt may be the speaker at the Statehood day celebration to be held during the El Paso fair and exposition. Col. Roosevelt has been invited to attend the Pueblo irrigation congress in September, and the American Mining congress at Los Angeles in October. He has already signified his intention of attending the Cheyenne celebration this fall. As these days immediately precede the dates for the El Paso fair and exposition, the directors, with the assistance of the leading citizens of the two territories, will urge Col. Roosevelt to attend the statehood day celebration and deliver the statehood address.

El Paso being the logical place for holding a joint celebration of the acquisition of statehood by the territories, the celebration will be made the one formal celebration of the big event. Having been a driver's worker in the cause of statehood for New Mexico and Arizona while president, the invitation to deliver the address at the statehood celebration is expected to have a strong appeal to the former president and if it is at all possible for him to be in El Paso at the time, it is thought that he will arrange his western trip so that he may be present at the celebration.

Should it be found possible for the president to attend this celebration, a monster demonstration will be arranged by the territories acting in conjunction with the fair association, and the citizens of El Paso. The Rough Riders who fought under Col. Roosevelt in the Spanish war will be mobilized here for the occasion and a civic industrial parade representing each city and district in the two territories will be arranged as one of the features of Statehood day.

The formal invitation is to be taken up by the directors of the fair association at a special meeting to be held Thursday afternoon when definite action will be taken toward inviting the famous fighting president to visit El Paso and participate in the Statehood day celebration.

EMIGRATION TO CANADA STOPS; TIDE TURNS BACK.

Washington, D. C., July 14.—The tide of emigration of Mexicans to Canada which has been the subject of great concern to the administration of the public domain for the last few years has turned, in the opinion of officials of the reclamation service. Thousands have returned and a great many more are expected back soon.

The American settlers were dissatisfied with the character of the land and the crops, which they alleged consisted principally of alfalfa and such hardy grains as winter wheat, and even these were not sure. The form of government did not appeal to them and they considered railroad rates exorbitant.

EXAGGERATED REPORT OF STEAMER EXPLOSION.

London, England, July 14.—Startling rumors of great loss of life following a collision between two steamers on the Dnieper river reached here today from Odessa, Russia.

Inquiry developed that the reports are an exaggerated version of last Saturday's accident, when a boiler exploded on the steamer Levitt when three persons were killed and 14 others subsequently died from injuries.

COAST OUTLET FOR MURPHY'S LINE TO PORT LOBOS

Tucson, Ariz., July 14.—The Arizona, Mexico & Gulf of California railroad has awarded contracts for the construction of a line from Silver Bell and Saco, Arizona, to Port Lobos, Mexico, a distance of 200 miles, giving Tucson a direct line to the coast, according to a telegram received this morning from Victor L. Mason, vice president of the Development Company of America.

The contract was also let for the construction of a reinforced concrete pier to enable the deepest sea-going vessels to dock.

This road will give the Southwestern and Rock Island a Pacific outlet when the Southwestern extends to Tucson.

DESPERATE FIGHT WITH PIRATES

Hong Kong, China, July 14.—A fight between Chinese pirates and Portuguese on Coloman island, which has been going on several days, ended today when the fire of the Portuguese gunboat Patria dislodged the Chinese from the fort which they had taken from the Portuguese yesterday. Many Chinese were killed during the bombardment. Two junks loaded with Chinese attempting to escape were sunk and all were drowned.

The trouble grew out of an attempt of Portuguese soldiers to rescue several Chinese students who were held prisoners by the pirates. It is officially stated.

There was a heavy loss. A Portuguese gunboat operating with troops bombarded the pirate settlement.

The Chinese repelled vigorously. Portuguese reinforcements were sent to the scene from Macao.

MANY HORSES BURN IN A BIG FIRE

Great Loss to Property and
Two People Also Meet
Death in Portland Blaze.

FIRE STARTS IN OLD BUILDING

Portland, Ore., July 14.—Fire early this morning, west of the central portion of the city, resulted in a loss of at least one life, the injury of several persons, the burning of 150 horses and the financial loss of about \$300,000.

The burned district covered approximately 10 acres, including the athletic field of the Multnomah Athletic club. F. R. Price, foreman of the United States Carriage company's stables is badly injured and in a hospital. An unknown man is known to be dead.

The fire started in the exposition building, built in 1887. This burned like tinder. Buildings across the street were soon set afire, then the buildings of the Multnomah Athletic club were destroyed. Several large apartment houses, residences and a number of stores on the north side of Washington street then burned.

That the fire was confined as closely as it was, is due to the fire fighting abilities of a hundred sailors detailed from the gunboats Marblehead and Yorktown, which were lying in the harbor. But for the bluejackets, the Glendora hotel would have been destroyed.

PORT WORTH HAS A FIRE AND NO WATER

Denison, Tex., July 14.—With all the city water cut off because of necessary repairs being urgent, fire broke out early today in the residence section here and five dwellings were destroyed, causing a loss of \$10,000.

The hotel is expected that the fire was of incendiary origin and the authorities will be asked to make an investigation.

The firemen did what they could with chemical engines but to no avail.

GERMAN SHIPYARD EMPLOYEES STRIKE

Will Go Out for Shorter Day
and More Pay If Not
Granted.

Hamburg, Germany, July 14.—Thirty-five thousand shipyard workers united today in a demand for an increase of 10 per cent in wages and a 53 hour week.

A strike is threatened if the concessions are refused. The workmen are engaged in the shipyards of Hamburg, Bremen, Vegesack, Bremerhaven, Flensburg, Kiel, Lubeck, Rostock and Stettin.

TWO TEXAS WOMEN HIT BY LIGHTNING

Shreveport, La., July 14.—During an electrical storm last night, Mrs. Oscar Watts and her sister, Mrs. D. C. Watts, were prostrated and rendered unconscious by a stroke of lightning. The bolt struck a residence and damaged the room. Both women were revived and, while suffering from a severe shock, it is not likely that their injuries will prove serious.

DAVIDSON EXPECTS PLURALITY OF 35,000

Austin, Texas, July 14.—Based on the assumption that half a million votes will be cast in the coming Democratic state primary on July 23, at the headquarters of R. V. Davidson, candidate for the nomination of governor, this morning it was predicted that the former attorney general will be elected by a plurality of approximately 35,000.

NEW NATIONAL PARK A BEAUTY

Scenes in beautiful Estes Park, near Denver, Colo., which may be made into a national park.

The top photograph gives a view of the automobile road in Estes Park. Below, on the left is a view of Continental Divide, from Horseshoe Ranch, Estes Park. On the right is shown one of the many glaciers in Estes Park.

SUB-CONSCIOUS MIND

"MAN IS A MYSTERY TO HIMSELF"

POWER; TRY IT

"Someday will come a man who will drive the team of 'Intellect and Intuition.' He will lead the world."

Such is the belief of Floyd Baker Wilson, psychologist, business man, lawyer, author, thinker. Just returned from an inspection of Mexican mining properties in which he is interested, the New York visitor in the lobby of Hotel St. Regis Thursday morning told The Herald of his unique ideas.

"Yes, the man who can control his sub-conscious mind, his soul or whatever you call it, and mate that with his intellect, which is nothing more than reasoning by knowledge, he will be all powerful," declared Mr. Wilson. "This is an age of intellectuality, and also an age of research of other things."

The speaker himself represents a certain cult of which he is a free lance, advancing his ideas by lecture or book abstract from circumscribed formulas or creed.

"If a bridge falls with a train, some one will tell you that it is because God willed it. I tell you it is because the bridge was weak. That has nothing to do with spirituality. It is physical. The point is that if a man knows the power of his soul, or intuition, or sub-conscious mind, he will be a better and stronger man. Man need not have faith in anything but himself, in the control of his trinity."

Regarding such things, Mr. Wilson has written a number of books and lectured often. "Path to Power" now in its 15th edition, has been widely circulated among the thinking few, and "The Rise of the Soul" is no less popular among a fewer few by reason of its character. The author is less interested in social problems; his research conducted both at home and abroad has followed more closely the Hindu school of reincarnation rather than the social

NO MONEY TO MOVE COTTON

Financiers Have Refused to
Advance Cash of Bills
of Lading.

Denison, Tex., July 14.—It is announced that the credit institutions of the east and of Europe have declined to advance any more money on cotton bills of lading, and the news has created consternation among bankers and growers in north Texas. The action is said to be due to the failure of Knight, Yancy & Co., of Decatur, Ala.; Steele, Miller & Co., of Corinth, Miss.; and Dunant, Elmer & Co., of Albany, N. Y.

The Texas Bankers' association will importune governor Campbell to recommend a special law making railroads responsible for the acts of agents and not depend upon the question of general negligence. Another proposed remedy is a change in the anti-trust statute of Texas to enable surety companies to combine for the purpose of writing insurance upon bills of lading.

TO SAVE THE IMPERIAL VALLEY

Government Going to Dam
the River and Keep the
Water Back.

Beverly, Mass., July 14.—Plans for preventing the devastation of the Imperial valley in California by floods from the Colorado river are already under consideration by president Taft.

Congress appropriated a million dollars at the last session for the work of restraining the river and protecting the valley, and the administration intends to use this money if possible before the fall rains come.

Part of the threatened territory lies in Mexico and an international commission to deal with the matter is possible.

FAIL TO KEEP AERIAL INFORMATION; MEET DEATH.

Leichlingen, Ger., July 14.—The bodies of Oscar Erbsloeh, a balloonist, and his four companions, who were killed when their dirigible was wrecked by an explosion yesterday, will be buried today. The place of internment will be marked by a monument erected by the airship company.

Officials of the observatory at Aix La Chapelle assert that this accident as well as the recent disaster to count Zeppelin's big airship might have been avoided had the aeronauts sought atmospheric information from the observatory.

THE Mutt and Jeff daily series is the best of the century.

Full page comics by Outcault, Opper, Dirks, Swinnerton, Schulte and others, creators of "The Katzenjammer Kids," "Happy Hooligan," "Howson Lott," "Har, Har, Sam," "Tige," "Foxy Grandpa," "Willie and His Pa," and other famous comic characters.

Special theatrical and sporting letters and pictures.

Another valuable feature of the service that is now supplied The Herald by the International News Service is the illustration of the important news each day, with pictures of persons and scenes figuring in the chief events of the day.

All this is in line with The Herald's policy of giving its readers the best obtainable, and exclusive service.

The Herald's general manager is now in New York making contracts for this service; it is the greatest ever printed south of Denver.

DUPLICATE OF CHARLTON MURDER

The London Police Believe
American Killed His Wife
and Buried Body in Cellar.

CORPSE OF THE WOMAN IS FOUND

London, Eng., July 14.—A case strikingly similar to the Charlton murder at Lake Como has developed in the finding of the body of Belle Elmore.

Today Scotland yard embled the police of the United States requesting the arrest of the woman's husband, Dr. Hawley Harvey Crippen, also an American, who is believed to have sailed for New York Saturday.

Dr. Crippen, who is a dentist 50 years of age, has made his home for some time in North London. Several weeks ago his wife, Belle Elmore, a vaudeville actress and treasurer of the Music Hall Artists' guild, disappeared, and subsequently a notice of her death appeared in the papers.

Last Saturday Dr. Crippen disappeared. Yesterday a search of the Crippen house was made and the battered body of a woman was found buried in the cellar. It had been placed in quicklime and was burned beyond recognition, but the finding of the body and other discoveries convinced the police that the murdered woman was Mrs. Crippen.

They also believe Crippen was accompanied by Ella Clara Leneve, a French woman, in his flight to the United States, and that the woman is dressed in male attire.

Indications point to a coolly planned murder. Mrs. Crippen was well known in vaudeville circles.

Miss Leneve was the doctor's stenographer.

A BIG RAILROAD STRIKE POSSIBLE

Philadelphia, Pa., July 14.—Another meeting will be held today between the general manager Myers, of the Pennsylvania railroad, and representatives of the trainmen and conductors of that system's lines east, who have voted to strike unless their demands for increased wages and better working conditions are granted.

Mr. Myers said last evening that the company is firm in its determination not to raise wages, but said working conditions would be improved, providing such a move would entail no expense to the company.

It is believed a strike will be averted.

DALLAS COUNTY TAXES SHOW REMARKABLE INCREASE

Dallas, Texas, July 14.—That there is over \$5,000,000 increase in taxable values of Dallas county this year over last, was asserted Bolton made public the figures, showing the total this year amounting to nearly \$109,000,000. The increase in four years has been more than \$48,000,000.

STORE ROBBERED.

Terrell, Texas, July 14.—A special to the Transcript today from Forney, 12 miles west, states that burglars robbed the store of the R. P. Shea Mercantile Co., of \$150 worth of clothing last night and escaped. N. J. arrests were made. The authorities suspect negroes. The entrance to the place was effected by breaking a rear window.

TEXAS COMPANY GETS STATE OIL CONTRACT

Austin, Texas, July 14.—State purchasing agent White today awarded the following contracts: Sanger Bros., Dallas, merchandise to state institutions; A. B. Frank & Co., San Antonio, Texas, same; Texas company, Houston, axle oil and paraffine; Bonner Oil Co., Houston, aqua purifier.

KILLED WITH AN "EMPTY" SHOTGUN

One More Ddn't-Know-It-
Was-Loaded Fool Kills
His Best Friend in Play.

SNAPS GUN IN FRIEND'S FACE

Muskogee, Okla., July 14.—After he examined, as he says, a shotgun to be used in a theatrical performance and found it empty, Everett Olden seized the weapon at the proper time in a wild west play, snapped it at Jacob Winkler, who also took part in the production; the gun was discharged and Winkler shot in the face and killed last night at Stone Bluff near here.

Olden and Winkler are well known young men in the community. They have been chums from boyhood. Olden was formally placed under arrest. Winkler's family expresses the belief that the unfortunate affair was due entirely to accident and it is not thought that Olden will be held longer than for a preliminary hearing.

Who placed the loaded shell in the gun is a matter being rigidly investigated by the authorities and sensational developments are expected.

RAILROAD TAXES ARE SUSPENDED BY U. S.

Washington, D. C., July 14.—The Interstate commerce commission today announced its intention to suspend all tariffs naming general and important rate advances, pending an investigation into the reasonableness of such advances.

"No more definite statement can now be made," says the commission, "but specific orders will be announced from time to time as they are entered and served. It is expected that the suspension in each case will be for 120 days from the effective date named in the tariff, but the commission intends by subsequent orders to provide for making effective on the same day such advances as may be allowed."

STEAMER IS HELD BY CUSTOMS MEN.

Mobile, Ala., July 14.—Customs officials here today refused clearance papers to the Norwegian steamer Irtstein, that is ready to sail for Bluefields, Nicaragua. It is alleged she has cartridges on board.

FOREST FIRES SWEEP OVER A LARGE AREA

Great Falls, Mont., July 14.—Whitefish, Mont., is in the center of forest fires that are sweeping the mountain sides, licking up the logging camps and threatening the town itself.

The smoke is so thick that it is difficult to breathe. So far as known there was no loss of life, but thousands of cords of wood and 500,000 ties have been destroyed.

Another fire about 10 miles south is coming directly toward Whitefish. A dispatch from Kalispell reports three other fires burning in the valley.
